TASMAN

Note: It is compulsory to carry certain safety equipment including a lifejacket Type 1 for all on board, whilst navigating in the open sea. It is also compulsory that lifejackets be worn whilst crossing most entrance bars shown on this map.
Further information on what you should carry can be found in the Roads and Maritime Services Safe Boating Handbook available from all RMS offices or by visiting www.rms.nsw.gov.au

The Marine Safety (General) Regulation 2009 requires vessels on open water (i.e. out from the coast) to have an appropriate map or chart on board.
This map is deemed to be an appropriate map for recreational vessels undertaking voyages less than 3 nautical miles off the coast and within a radius of 15 nautical miles from the point of departure from the coast. Vessels undertaking longer voyages than that stated above MUST carry an appropriate chart (i.e. an Admiralty or Australian Hydrographic Service chart) showing the area proposed for the voyage or excursion.
It is the vessel masters responsibility to ensure that they are in possession of the latest edition of this boating map or chart.
